<p><b>Pitt+Me Title</b>  <b>Volunteer for Asthma – AIR (Asthma Institute Research Registry) – Adults with Asthma</b></p> <p><b>Study Basics</b> <i>(400 character limit)</i>          Do you have asthma? Are you at least 18 years old? If so, you may be able to take part in the Asthma Institute Research Registry to help researchers learn more about asthma. Compensation provided.</p> <p><b>Study Purpose</b>          Asthma – which affects more than 25 million people in the United states -- is a chronic lung disease that that causes swelling and inflammation in the airways, making it hard to breathe. Researchers want to better understand asthma by enrolling people with asthma into the Asthma Institute Research Registry. A research registry is a list of individuals who agree to allow researchers to review and study their medical records, and allow researchers to contact them about future research study opportunities. Many advancements in medicine have resulted from research involving the collection and analysis of the medical record information of patients with a certain disease or condition.</p>	<p> <b>AGE:</b> 18 and up  <b>GENDER:</b> M/F</p> <p><b>VISITS:</b> 1  <b>DURATION:</b> 1.5 hours</p> <p> <b>LOCATION:</b>          University of Pittsburgh          Asthma Institute,          UPMC Comprehensive          Lung Center,          University of Pittsburgh          Division of General          Internal Medicine          Oakland (GIMO)</p>
<p><b>Could This Study Be Right for You?</b></p> <ul style="list-style-type: none"> <li>• Ages 18 and up</li> <li>• Diagnosed with asthma</li> <li>• Do not have a greater than 20 pack year cigarette smoking history (not more than 1 pack per day for 20 years, or 2 packs per day for 10 years)</li> </ul>	<p> <b>COMPENSATION:</b>          Up to \$30</p>
<p><b>What Participants Can Expect</b> <i>(1500 character limit)</i>          Participation involves 1 visit that lasts about 1.5 hours. Study procedures include a blood draw, breathing tests, questions about your medical history, and agreeing to have your medical record information added to the research registry so that researchers may learn more about asthma.</p> <p>Once you are enrolled in the study, you may be contacted for future research studies for which you may qualify.</p>	<p><b>STUDY LOGO:</b>   The University of Pittsburgh  <b>Asthma Institute</b>  <small>@UPMC</small></p>

## MEET THE RESEARCHER

Sally E. Wenzel, MD, has a passion for understanding and improving the treatment of asthma, particularly severe asthma. She served as Chair of the ATS workshop on severe asthma that developed the international consensus definition of severe asthma. Dr. Wenzel has been listed as one of Castle Connolly's top doctors in America for over 10 years.
